## BOND ROBBERY NOW TOTALS $800,000

### Trust Company of America Was the Victim.

### WAS FIRST PLACED AT $50,000

**Theft Continues an Absorbing Subject in the Financial District of New York—William C. Douglass, Bond Clerk, Now Under Arrest.**

New York, April 30.—The big bond robbery in which the Trust company of America was the victim, continues an absorbing subject in the financial district where every development is eagerly scrutinized.

The robbery, at first put down as a $50,000 affair, has steadily grown until today it appears that securities aggregating $800,000 in value have been taken by William O. Douglass, the bond clerk, now under arrest. These figures are reached as the result of an interview given by a member of the executive committee of the Trust company, who said that it took $165,000 to redeem the securities hypothecated with brokers for loans by O. M. Dennett, who is under arrest in connection with the robbery, and that the securities were pledged for less than one-third of their value. He also said that it was $300,000 and not $20,000 worth of securities that were hidden in Broker Dennett's bed at the Manhattan club.

Taken at the executive committeeman's own estimate, that Douglas and Dennett realized only a part—less than a third on the average—it can be seen that the $165,000 that the trust company has lost on the outstanding securities represented a value of nearly $500,000. Adding the $300,000 found in the bed of Broker Dennett makes $800,000.

What has become of the money Douglass and Dennett raised, is unexplained. The trustee who talked Sunday said that while he was of the opinion that much of this had been lost in speculation, he felt sure that the pair had a snug sum tucked away somewhere.

### WONDERS OF THE FUTURE.

**Possible to Dine In America, Breakfast In Europe Next Day.**

London, April 30.—Dr. Alexander Graham Bell, the inventor of the telephone, is quoted in an interview which has appeared here as saying that it was only a question of a brief period when the progress of aerial navigation will make it possible to have dinner in America and breakfast the next morning in Europe, covering the distance across the Atlantic in less than twenty-four hours.

Dr. Bell said that he expected that an airship would be perfected capable of making 175 to 200 miles an hour. He was also of the opinion that the next step in aerial flight would take the form of such improvements as would make possible the creation of aerial battleships. He was of the opinion that America would be the first country to perfect aerial battleships.

**A Youthful Marriage.**

Atlanta, April 30.—Sunday night a very happy young couple, Miss Alma Monroe, aged 13, and Mr. Foster West, aged 25 years, attended church together. After church was over, instead of returning the young lady to her parents, Mr. West persuaded her to become his wife, so a minister was found and the marriage took place. The brother of the youthful bride, hearing of the runaway marriage, summoned the police department to his rescue, and requested that the couple be arrested, but his call came too late.

**Hopes There Will Be an Exception.**

Madrid, April 30.—An article calling attention to the historical fact that the first born child of Anglo-Spanish royal marriages has always been a girl, has appeared in a popular journal here, and is causing a great deal of discussion. The public hopes that the present case will prove an exception.

### GREAT INDIGNATION.

**American and Mexican Legations Are Stoned in Guatemalan City.**

Mexico City, April 30.—The most extreme indignation, and wild excitement have been caused here by the report that the American and Mexican legations in Guatemala City have been stoned by a mob of several hundred men, instigated to the act by agents of President Manuel Estrada Cabrera, of Guatemala. There is evidently a strong inclination to give credence to the report, and no official denial has been made, though the federal authorities refuse to confirm it. Mexican troops are being mobilized on the Guatemalan frontier, which is believed to be highly significant, though the war department has stated that the mobilization of troops is nothing more than a move to insure strict neutrality, and to protect Mexican interests against any remote danger from irresponsible, marauding bands. The mobilized forces in the south will be under command of Brigadier General Antonio R. Flores, directly assigned to the duty by the war department. He will be aided by Captain of Engineers Malas, who has already left here for the isthmus of Tehauntepec.

### MOST REMARKABLE CASE.

**Woman's Head Bursts While Suffering From Severe Headache.**

Nashville, Tenn., April 30.—A Glasgow, Ky., dispatch says that Mrs. Bettie Davis, an aged lady, who lives at Coral Hill, Ky., recently had her head to burst from headache.

The case is a most peculiar one, and is puzzling the doctors.

Thursday afternoon Mrs. Davis took a severe headache, and suffered all throughout the afternoon, night and all day Friday. The usual simple remedies failed to give relief, and some time Friday night a hole about the size of a 32 caliber ball appeared in Mrs. Davis' forehead near the temple, and when discovered, the blood had run down off the bed and for more than six feet on the floor.

After the loss of considerable blood, Mrs. Davis' head became easy, and since then she became easy and has suffered no inconvenience.

**America Captures Big Contracts.**

New York, April 30.—American interests have captured a number of important foreign contracts for electrical equipment including a plant for lighting the czar's palace at Tsur-Skoe-Selo. Contracts have also been obtained within the last few days for the construction and the operation of a British municipal electric traction system and for rails for one of the biggest corporate tramways on the other side of the Atlantic. The carrying out of the work which calls for the shipment of turbines, etc., to England, France, Italy, Australia and South America will represent an outlay of $5,000,000.

**Ancient Umprian Art.**

Perugia, Italy, April 30.—King Victor Emmanuel, who was accompanied by Foreign Minister Tittoni and Education Minister Pava, Monday inaugurated in the municipal palace at this place an exposition of Ancient Umprian art, arranged chronologically and comprising a thousand pictures and thousands of other objects. Among the most interesting objects were the pontifical robes which belonged to Pope Benedict XI, 1303-1304, which were found buried with him in the historic church of San Dominico here.

**Raisuli Fomenting Agitation.**

Tangier, April 30.—Information has reached here that Raisuli is fomenting an agitation among the Lekame tribes and it is believed that he will obtain the support of the Tetun tribes which are under French control. The French troops have been sent from Algiers to reinforce the Tetun column.

**Moore's Trial Begun.**

Springfield, Mo., April 30.—The trial of Garland Moore, the mail carrier who, in December last at Bois d'Arc, near here, shot and killed Clara West, a young society woman, because she had spurned his attentions, was begun here Monday.

## GENERAL JOSE LIMA MAY BE EXTRADITED

### Statement of Assassins May Cause Action.

### REQUEST WAS MADE BY MEXICO

**That Government Has Asked for the Extradition in Order that the General May Be Brought to Mexico to Face Certain Charges.**

City of Mexico, April 30—As a result of the statements of Morales and Mora, the two assassins of General Barrillas, implicating General Jose Lima in the murder of Barrillas, the Mexican government has asked Guatemala for the extraditon of General Lima in order that he may be brought here to be confronted with the accusations made.

Requisition papers have been made out for Onofere Bone, commandant of the Guatemalan port of San Jose, the man who, in the confessions and statements made to the police here, is named as the one who assisted the assassins in leaving San Jose for Mexico, when the latter came here with, according to their statements, the premeditated purpose of murdering, not only General Barillas, but General Salvador Toledo as well.

This action is said to have been taken immediately after a special meeting of the members of the cabinet with president Diaz last Thursday and the Mexican government is now anxiously awaiting the reply from President Estrada Cabrera, of the government of Guatemala.

General Lima is a general of division, in the Guatemalan army, and is said to be one of Cabrera's favorites in the government service, and the character of the reply from President Estrada Cabrera is a matter for much speculation in unofficial circles in this city.

According to the statements made by both the assasins, Morales and his accomplice, Mora, who have been in the custody of the Mexican police since the night of the murder of General Barrillas, it was General Lima who suggested to Mora that he (Mora) find a man to come to Mexico to commit this crime and to kill General Toledo as well.

The request for extradition is said to have been made under the treaty of 1895, between Mexico and Guatemala, whereby each country agreed to reciprocate in the extradition of common criminals. Men accused of political crimes are exempted. While the assassination of Barrillas is generally considered to be of a political nature, the actual murder is a common crime with no political significance and punishable under the penal laws of Mexico. In official circles here it is considered highly improbable that President Cabrera will hand over General Lima. How he will get out of doing this without seriously offending Mexico, is a question that is causing much discussion.

**Awaiting Instructions.**

St. Petersburg, April 30.—Ethelbert Watts, the American consul general here, is only awaiting the arrival of instructions from the state department before departing to his new post at Brussels, where he will succeed the late George W. Roosevelt, as consul general. Nelson O'Shaughnessy, ex-third secretary of the American embassy at Berlin, and recently appointed third secretary of the embassy here, has relinquished the latter appointment to accept a similar post at Vienna.

**Francis Joseph Returns to Vienna.**

Prague, April 30.—Emperor Franz Joseph left Prague for Vienna Monday, after a fortnight's stay at the Bohemian capital. His majesty signalized his departure by addressing a rescript to the government of the province, earnestly appealing for conciliation between the Czech and German nationalities. He pointed out that a start had been made in this direction by the introduction of universal suffrage.

### BELIEVED TO BE MURDERED.

**Wachman of the Atlantic Coast Line Shops Found Dead at Waycross.**

Waycross, Ga., April 30.—According to the verdict of the coroner's jury, John Grantham, 35 years old, was murdered by unknown parties at the new Atlantic Coast Line shops, here, Sunday morning.

The body of the dead man was discovered by his little son, when he went to the shops to carry his dinner to him. The boy thought his father was asleep, and that he wouldn't awake him.

Mrs. Grantham then went to the shops, and found that her husband was dead, a bullet having entered his breast near the heart. The body was about 70 feet from the building in which Grantham's pistol was found, with one chamber empty. The dead man was watchman at the shops.

It was at first thought that he accidentally killed himself, but after the body was examined by physicians and the coroner's jury, it was decided that from the course of the bullet, that it would have been almost impossible for him to have accidentally shot himself, so the jury returned a verdict to the effect that Grantham came to his death at the hands of parties unknown.

### MORGAN TO RETIRE.

**Duties of Famous Financier Will Be Taken Up by Son.**

New York, April 30.—It is authoritatively stated that John Pierpont Morgan, famous financier, intends to retire from active business. His duties will be assumed by his son. Mr. Morgan celebrated the seventieth anniversity of his birth on April 17. He was born in Hartford, Conn., in 1837. He graduated from the English High School at Boston and afterwards studied at the University of Gettingen, Germany.

For many years Mr. Morgan has been a leading figure in the financial affairs of the United States and of the world. He is at present traveling in Europe. For years he has been a great art collector.

### BAN PLACED ON FIREARMS.

**Immigrants Cannot Land In America Unless They Give Up Weapons.**

New York, April 30.—Nearly 4,000 immigrants on the Citta di Milano and Nord Amerika, of the Italian line, just in from Naples, and Genoa, got a taste of the laws of the country when agents of the line appeared on the bridge of each vessel and shouted that all weapons and knives must be thrown away or left with the officers of the ship before the immigrants would be allowed to land.

There was an instantaneous shower of stilettoes, ugly looking, long knives and revolvers of modern and ancient makes. When the immigrants land on Ellis Island, it is believed that they will be the most harmless lot of immigrants received in many a day.

**McArthur Goes to Meet Kuroki.**

Seattle, Wash., April 30.—Lieutenant General McArthur, ranking officer of the United States army, accompanied by staff officers arrived here Sunday from San Francisco. General MacArthur is here to meet General Kuroki, who will arrive May 2. The ranking general is the personal representative of President Roosevelt, and will accompany General Kuroki across the continent to Jamestown, where he will be the nation's guest.

**Wizard of Menlo Park at Home Again**

New York, April 30.—Thomas A. Edison is back at his home after a few weeks' vacation in Florida. The inventor will hereafter devote his time to the purely scientific side of electrical work. Mr. Edison put in some good time tarpon fishing and made several fine catches. He is much improved in health.

**State Fair Assured.**

Atlanta, April 30.—Atlanta is subscribing liberally to the state fair. Already the fair is assured. The officers will be elected by the Fair Association on May 1. Many Atlantans have doubled their subscriptions. Secretary Frank Weldon is enthusiastic over the prospects.

**Report to the Effect That Tribe Was in State of Revolution Account Theft of Chief's Bones Absolutely False—Everything Peaceful.**

Rev. Rudolph Starling, a prominent Episcopal divine of Wulfert, Samuel Islands, but who has charge of the pastorate of the Episcopal parishes of Arcadia and Wauchula, DeSoto county, is in the city.

Dr. Starling is a pleasant, fluent and interesting talker. For six months he was engaged as a missionary among the Seminole Indians, in the meantime becoming very familiar with their language and habits and picturesque surroundings.

In speaking of the recent scurry over the capture of the Indian Chief Big Foot's bones, which it was reported had caused an uprising of the Seminoles, who were preparing for war, Dr. Starling states there was nothing but fiction to the story. While it is true it is believed that the bones of Big Foot were disinterred and taken away, that has been five or six years ago, and the matter has passed long ago.

"The Seminoles are a peaceable, lovable, loyal people," he said, "and the report by some possible designing person or persons that they were on the warpath is a great injustice to the tribe. There is absolutely nothing to the story."

### THE CITY COUNCIL.

**New Organization Evidently Does Not Like Charter Amendment.**

Pursuant to a call of the president, the City Council met in special session Monday afternoon, at which were present President Broome, and Aldermen Bunch, Cannon, Mixson, Vidal, Wittstock and Webster.

Alderman Webster offered the following resolution, which passed the Council by unanimous vote, and was adopted:

"Whereas, it is the judgment of the City Council of the city of Gainesville that it would be unwise and contrary to the wishes of the people of Gainesville for the Legislature to enact into law the amendment to the city charter of the city of Gainesville, as passed by the State Senate, being Senate Bill No. 274, and

"Whereas, The charter granted to said municipality by the Legislature of 1905 gave to said city local self-government and made ample provision for all needed or desired amendment to said charter by a vote of the people, therefore, be it

"Resolved, That this Council do hereby recommend to our representatives in the Legislature to defeat said proposed bill in the House of Representatives; and should said representatives fail to defeat the same, that the Governor be earnestly requested to veto said act."

After which the Council adjourned.

### THIS WOMAN WAS HELD.

**Rollie Royal, Who Killed Lee James, Said it Was Accidental.**

Pleading that the tragedy which caused the death of Lee James, the fourteen-year-old son of Richmond James, colored, at Grove Park, a few weeks ago, Rollie Royal, a negro woman who held the gun that killed him, begged the mercy of Justice Colman's court Monday.

The woman does not deny killing the boy, but states that when the lad came into her back yard she was tampering with the gun, when it was accidentally discharged, the entire contents taking effect in the boy's breast and head, resulting in instant death.

Owing to the fact that the coroner's jury who investigated the affair at the time of the tragedy returned a verdict to the effect that the killing was an accident, and that several witnesses of reputable characters had testified before him in this case, Justice Colman was lenient with the prisoner, offering to release her under a bail of $250 for her appearance at the coming term of the Circuit Court.

The woman has not yet been enabled to secure bond, and is still in jail.

The story of the killing of this boy appeared in The Sun shortly after the tragedy.

### IN THE MAYOR'S COURT.

**Three Cases Were Disposed of in That Tribunal Tuesday Morning.**

There were three offenders of the municipal statutes before Mayor Thomas Tuesday morning, one drunk and disorderly and two for disorderly conduct without the humiliating condition of the former.

William Edwards is ordinarily a pretty good kind of a fellow, and like many others who imbibe sometimes too freely in the cup that is red, when he gets a little more than he really ought to have, he begins to celebrate. His voice grows strong, but his knees do not respond, instead growing weaker, which he does not realize until the cop has nabbed him in the collar and started off toward the Arnow "Hotel." Then he begins to reflect that there must be something wrong.

Edwards was on one of these little jaunts when Policeman Kite interfered. He was docketed upon a charge of being drunk and disorderly, and the mayor assessed a fine of $5 and costs.

Jimmy Jones and Sampson Guerry were up for disorderly conduct—in plain words, fighting. It appears that Sampson was comfortably occupying a chair at the home of a friend, when James approached, and that is how the trouble began. It is said that James demanded of Sampson to get up and relinquish the right to the chair, which he had kept warm long enough. Sampson refused, when James endeavored to force him out. Sampson unfortunately did not possess that powerful strength which his namesake of ancient times possessed through his hair, hence got the worst of the difficulty. They were both arrested and arraigned for fighting, when a sentence of $2.50 and costs was imposed on each.

Senate bill No. 293, providing new charter of city of Alachua, passed under suspension of rules on motion of Mr. Doke of Alachua.

Bills On Third Reading.

By Mr. Massey—Fixing the regular term of the circuit court of the seventh judicial circuit; passed, yeas 55, nays 0.

By Mr. Harvell of Santa Rosa—Making an appropriation of $2,500 annually for two years to secure a better attendance upon teachers' summer schools. Amendments adopted. One of these excludes from the benefits of the appropriation teachers living in counties where normals are located. After considerable discussion on the bill, same was passed by a vote of 37 yeas, 12 nays.

The House adjourned until Tuesday morning.

LASSITUDE.

Many of those who at this season of the year experience a feeling of lassitude attribute it to the fact that it is spring, whereas the season itself is by no means the cause of the sensation. This, more often than not, say physicians, is due to the fact that the human system reaches a point in the spring season when a thorough "cleaning up" is needed. The machinery of the body needs going over once in a while, just as does that of a factory. Neglected, the bodily functions become deranged, and one of the most common manifestations of this is constipation. This, specially in its chronic form, means that certain muscles of the body are not in condition to do their work properly, having become weak and inelastic. To overcome this condition is to cure constipation—not simply give relief to the sufferer—and for this purpose medical men of experience are using with great success a combination of ½ oz. Fluid Extract of Senna, ½ oz. Rochelle Salts, 1 oz. Aro-Sagrada, 30 grains Bi-Carbonate of Soda, ½ oz. water and 1½ ozs. Glycerine. Of this a teaspoonful is administered at bedtime and before each meal, and this is continued until there is free movement of the bowels. Any good pharmacist can put up the preparation.

Night Force Goes on Strike.

Cincinnati, O., April 29.—The night force at the champion coated paper works, 450 in number, went on a strike Friday night. The men ask eight-hour shifts. The plant has been run on two shifts, the day one working 11 hours and the night hands thirteen hours. Nearly 1,000 men and women are employed at the plant.

"Tipping" in Europe.

According to immemorial usage, European servants are entitled to tips as an assured part of their income. At the hotels the theory is that the landlord furnishes a guest a private room and the use of the public rooms, heat and light, food and dishes, but not menial service. For convenience he keeps at hand a corps of servants who will respond to the guest's summons, but at his expense. In old times travelers were attended by their own servants to wait on them. The modern custom echoes the ancient. The traveler no longer carries with him a retinue of servants, because he can hire temporarily those of the landlord. The customary fees are the payment. To avoid feeing is really to cheat the servants, who need all they can get, heaven knows. A chambermaid at the best hotels receives as wages only about $2 a month. Tipping servants in America is a regrettable imitation of the European custom without its resting on the reasonable basis of the foreign institutions.—Travel Magazine.

Told Who He Was.

The game warden of Colorado was walking out in the mountains on one occasion when he met a hunter with his gun. The official suggested that that ought to be a good country for hunting. "It certainly is," said the hunter proudly. "I killed one of the finest bucks yesterday I ever saw, and he weighed over two hundred." It was the season when deer may not be shot without subjecting the hunter to a heavy fine. "Well, that is a fine one," said the warden, "and do you know who you are talking to?" Being assured that he did not, the official said, "Why, I am the chief game warden of Colorado." The hunter was only taken aback for a moment, when he asked, "And do you know who you are talking to?" The warden didn't know.

"Well, sir," said the hunter, apparently much relieved, "you are talking to the biggest liar in the whole state of Colorado."—Kansas City Star.

Do You Love

your baby? You wonder why he cries. Buy a bottle of White's Cream Vermifuge and he will never cry. Most babies have worms, and the mothers don't know it. White's Cream Vermifuge rids the child of worms and cleans out its system in a pleasant way. Every mother should keep a bottle of this medicine in the house. With it, fear need ever enter her mind. Price 25c. Sold by W. M. Johnson.

Coal Dust.

Some years ago one of the inspectors of mines conducted a number of experiments on the explosive power of coal dust. A disused shaft 150 feet was chosen for the purpose. Samples of dust from different collieries were collected for the purpose. When two hundredweight of dust was emptied down a shaft and a charge of gunpowder fired, the result was startling. Huge tongues of flame sixty feet in height shot up from the mouth of the shaft, and enormous columns of smoke rose high in the air, forming a great black pall over the scene of the explosion. On the other hand, when high explosives were used no effect at all was produced on the dust. Coal is the carbonized remains of tree mosses. Oddly enough, these mosses were the big forefathers of the moss we know as lycopodium, which in a powdered state is used to produce flash signals. This will help to give an idea of the intensely inflammable nature of coal dust.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by all druggists.

Spoiled.

"Publishers insist on spoiling a great many manuscripts, don't they?" said the literary young woman.

"Undoubtedly," answered the bookseller. "A lot of 'em look a heap better typewritten and tied up with a ribbon than they do in print."—Washington Star.

All That Saved Him.

"Yes, sir, he was obliged to go in the snake country, so he took a gallon of Georgia corn along with him."

"And how did he make out?"

"Splendid! Got so full and wabbled so the snakes missed him every time they struck at him!"—Atlanta Constitution.

# TUMORS CONQUERED

## Overwhelming Proof that Lydia E. Pinkham's Vegetable Compound Succeeds.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy Tumor,

The growth of a tumor is so insidious that frequently its presence is wholly unsuspected until it is well advanced.

So called "wandering pains" may come from its early stages or the presence of danger may be made manifest by excessive monthly periods accompanied by unusual pain, from the abdomen through the groin and thigh.

If you have mysterious pains, if there are indications of inflammation or displacements, secure a bottle of Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, right away and begin its use.

The following letters should convince every suffering woman of its virtue, and that it actually does conquer tumors.

Mrs. May Fry, of 836 W. Colfax Ave., South Bend, Ind., writes:

Dear Mrs. Pinkham:—

"I take great pleasure in writing to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I also took the Blood Purifier in alternate doses with the Compound. Your medicine removed a cyst tumor of four years' growth, which three of the best physicians declared I had. They had said that only an operation could help me. I am very thankful that I followed a friend's advice and took your medicine. It has made me a strong and well woman and I shall recommend it as long as I live."

Mrs. E. F. Hayes, of 26 Ruggles St., Boston, Mass., writes:

Dear Mrs. Pinkham:—

"I have been under different doctors' treatment for a long time without relief. They told me I had a fibroid tumor, my abdomen was swollen and I suffered with great pain. I wrote to you for advice, you replied and I followed your directions carefully and today I am a well women. Lydia E. Pinkham's Vegetable Compound expelled the tumor and strengthened my whole system."

Mrs. Perry Byers, of Mt. Pleasant, Iowa, writes:

Dear Mrs. Pinkham:—

"I was told by my physician that I had a fibroid tumor and that I would have to be operated upon, I wrote to you for advice, which I followed carefully and took Lydia E. Pinkham's Vegetable Compound. I am not only cured of the tumor but other female troubles and can do all my own work after eigh years of suffering."

Mrs. S. J. Barber, of Scott, N. Y. writes:

Dear Mrs. Pinkham:—

"Sometime ago I wrote you for advice about a tumor which the doctors thought would have to be removed. Instead I took Lydia E. Pinkham's Vegetable Compound and to-day am a well woman."

Mrs. M. M. Funk, Vandergrift, Pa., writes:

Dear Mrs. Pinkham:—

"I had a tumor and Lydia E. Pinkham's Vegetable Compound removed it for me after two doctors had given me up. I was sick four years before I began to take the Compound. I now recommend Lydia E. Pinkham's Vegetable Compound far and near."

Such testimony as above is convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for Tumor Growths as well as other distressing ills of women, and such symptoms as Bearing-down Sensations, Displacements, Irregularities and Backache, etc. Women should remember that it is Lydia E. Pinkham's Vegetable Compound that is curing so many women. Don't forget to insist upon it when some druggist asks you to accept something else which he calls "just as good."

Mrs. Pinkham's Invitation to Women.

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass., for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham in advising. Thus she is especially well qualified to guide sick woman back to health.

## AFTER KANSAS BREWERIES.

**Receivers Appointed to Take Charge of the Same.**

Topeka, Kans., April 30.—The three receivers appointed by the state supreme court last week to take charge of the property in Kansas of eight outside brewing companies, and of all real estate concerns operated by one liquor firm, made its report to the court here Monday.

The report shows that the receivers have taken possession of nine buildings here and five at Leavenworth. They are now in the possession of a large assortment of bars, fixtures and mirrors. Not much liquor has been taken. Most of the places where the seizures were made have been saloons and the liquor was claimed by parties other than the brewing companies.

The receivers believe that the brewery companies will take some action to protect their property, now that the formal report of the seizures has been filed.

The brewery attorneys say they are awaiting definite authority on how to proceed.

**Governor Terrell Offers Rewards.**

Atlanta, April 30.—Governor Terrell Saturday offered the following rewards: For the unknown person who set fire to the dwelling house of Benjamin Moss, in Hart county, on April 21, $100. This is the sixth incendiary fire which has occurred in that immediate section in the last two years. For the unknown person who placed a stick of dynamite in the engine belonging to J. L. Cordell, of Hart county, on April 24, causing an explosion which wrecked the engine and injuring Cullie Cordell, his son, $100. For Lem Hall, indicted in Appling county for the murder of Slip Carter at the last term of the superior court, $100.

**To Probe Fraud Charges.**

New York, April 30.—The Times says the fact that at least one well known insurance man in this city has received a subpoena calling him to the district attorney's office became known Sunday, and was taken as an indication that District Attorney Jerome has begun, or is about to begin "John Doe" proceedings to inquire into the charges of fraud and forgery made in connection with the recent elections of directors of the New York and Mutual Life Insurance companies.

**Enthusiastic Farewell Given.**

Victoria, B. C., April 30.—The steamer Empress of China, which arrived here Sunday from Yokohama, brought news that General Baron Kuroki and his party of represetnative Japanese navy officers, dispatched by Japan to the Jamestown exposition, were given an enthusiastic farewell at Yokohama, when they started. The Aki Maru is due Wednesday at Seattle, and the party will proceed east at once.

**Fire Destroys Ship; Crew Perish.**

Rio de Janeiro, April 30.—News reached here that the British steamer Thorn Hill, bound for Rio Janeiro, was destroyed by fire during her voyage. Her crew perished.

## LARGE REWARD OFFERED.

**Montgomery After Miscreants Who Have Been Dynamiting Cars.**

Montgomery, Ala., April 30.—The Commercial Club, of Montgomery, has offered a reward of $1,000 for the arrest of the person who placed a dynamite bomb on the tracks of the Montgomery Traction company Saturday morning, and wrecked a car.

A string of cars were going to the barn when one of them struck the bomb within a block of the state capitol. The explosion shook the city, and was heard a mile away.

Business men of the Commercial club assembled and offered the additional reward of $1,000, without restriction as to conviction of the guilty persons. This makes a total of $2,050 for capture of miscreants who have been dynamitng the street cars.

## KAVANAUGH IN RACE.

**Baseball Magnet to Run for Governor in Arkansas.**

Memphis, Tenn., April 30.—Judge W. M. Kavanaugh, a native of Kentucky, and many times president of the Southern League, a member of the national board of arbitration and present leader of the Southern Baseball association, has authorized announcement of his candidacy for the gubernatorial contest in Arkansas.

It is thought that Judge Kavanaugh is practically sure of the democratic nomination at primaries to be held next month, in as much as present Governor Little has announced that he will not be a candidate for a second term. Arkansas has elected democratic governors for many years past by overwhelming majorities.

**Relief from Rheumatic Pains.**

"I suffered with rheumatism for over two years," says Mr. Rolland Curry, a patrolman, of Key West, Fla. "Sometimes it settled in my knees and lamed me so I could hardly walk, at other times it would be in my feet and hands so I was incapacitated for duty. One night when I was in severe pain and lame from it my wife went to the drug store here and came back with a bottle of Chamberlain's Pain Balm. I was rubbed with it and found the pain had nearly gone during the night. I kept on using it for a little more than two weeks and found that it drove the rheumatism away. I have not had any trouble from that disease for over three months." For sale by all druggists.

**Wins Weighty Husband.**

Waycross, Ga., April 30.—W. T. Brinson, who weighs 585 pounds, and is claimed to be the largest member of the order of Elks in the world, was Sunday married to Miss Lucios Allen, of Sophorton, Ga., a daughter of W. G. Allen, of that place. The wedding occurred at the Methodist parsonage. Brinson is a wealthy turpentine operator and is a widower of about a year. Miss Allen, it is said, weighs only 105 pounds.

**Good Words for Chamberlain's Cough Remedy.**

People everywhere take pleasure in testifying to the good qualities of Chamberlain's Cough Remedy. Mrs. Edward Phillips, of Barclay, Md., writes: "I wish to tell you that I can recommend Chamberlain's Cough Remedy. My little girl, Catherine, who is two years old, has been taking this remedy whenever she has had a cold since she was two months old. About a month ago I contracted a dreadful cold myself, but I took Chamberlain's Cough Remedy and was soon as well as ever." This remedy is for sale by all druggists.

## VAST RUSH OF IMMIGRANTS.

**Number Greatly Increases According to the Last Figures.**

New York, April 29—How stupendous is the rush of immigration to this port this spring is shown in a tabulation which makes its appearance this month that the arrivals here will total mor ethan 140,000.

There are waiting in the harbor 10,488 men, women and children, chiefly Italians. When the 25 ships due here within the next few days arrive there wil be waiting in the harbor and at the piers about 40,000 immigrants. Farm hands and day laborers have been attracted by the stories of high wages and general prosperity that have been sent to the other country by relatives and close friends.

Besides, the new immigration law will go into effect on July 1, and make it harder for laborers to enter the country, so there is a rush to get in before the new barriers are put up against them.

**Chamberlain's Colic, Cholera and Diarrhoea Remedy.**

There is probably no medicine that is relied upon with more implicit confidence than Chamberlain's Colic, Cholera and Diarrhoea Remedy. During the third of a century in which it has been in use, people have learned that it is the one remedy that never fails. When reduced with water and sweetened it is pleasant to take. For sale by all druggists.

**Sled Dogs for Exposition.**

St. Petersburg, April 30—Through the agency of the American consul general, Major Watts, a train of 20 Siberian sled dogs has been secured for the Wellman-Chicago Record-Herald expedition.

## UNHAPPINESS DISPELLED.

**Men and Women Unanimous About It.**

Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserable of both sexes, to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. The dinner brand of politics is getting popular.

Andrew Carnegie is the first man who has won a medal for spending money.

It is difficult now in Ohio to tell whether it is Senator Foraker's boom or bum.

Col. John Temple Graves is still trying picking a matched team for the presidential race.

All the roads lead to Jamestown. The Seaboard and Coast Line are leading travelers from this city.

Ohio has no interval in politics. That State is all the time electing somebody or other President.

The Interstate Commerce Commission's ruling on "party rates" is liable to breed another railroad brainstorm.

Democratic efforts from now on should be to get together and "sic" the Republicans to keep asunder.

According to the Atlanta Journal Cissy Loftus is to draw 62,000 a week. Does it mean dollars, cents or months?

A John Hopkins professor claims to have taught a starfish to turn somersaults. No telling where a fish story is going to break.

The courts are going to have a hard time devising some way of punishing Standard Oil without making the consumer squeal the loudest.

"I am attending strictly to my duties as Governor of this State," says Hughes. There is no finer business than minding one's own business.

The Indiana railroad managers have agreed not to discontinue the Sunday excursion in retaliation for the 2-cent-fare law. They are coming to their senses.

More timber land frauds and another Republican United States Senator implicated and yet the G. O. P. keeps trying to pose as the party of high moral ideas and the only true reformers.

Rockefeller's imported minister says business on heavenly basis, but does not say anything about restitution for past business corruption, or that a fair start can be made on the new track.

The report that the Harriman lines are trying to borrow $70,000,000 in Europe for the Union Pacific tallies with the fact that the treasury of that railroad has $134,000,000 surplus invested in stocks and bonds.

All the hand window glass plants in Pittsburg have closed down in consequence of over-production and to prevent reducing prices. Over 15,000 workmen are thus thrown out of employment and yet window glass is one of the highest protected industries. Does protection protect?

## BRYAN VIEWS ON RAILROADS.

William Jennings Bryan has made a definite announcement of his position on the railroad question. He says that he is ultimately in favor of government ownership because he believes that mere government control will prove inadequate to cope with the railroad situation. He says, however, that he knows that many, perhaps even a majority of the people are not ready for government ownership, that they are afraid of it as too radical, and he favors a trial of government control in order to prove what it will and what it will not accomplish. So for the present, he stands exactly on the same footing as the present administration. But he goes farther in declaring that the valuation of railroad properties should be made on the basis of the actual money invested in them. This would be a drastic squeezing out of all water. Rates, he says, should be fixed to give a fair return to this capitalization. Such a scheme would be welcomed by shippers all over the country. It would send the produce of the farmer to market cheaper and bring the farmer the products of the factories cheaper than ever before in the history of the country. But there would be an awful fight against the program by the railroad interests, such a fight in fact that it is doubtful if it could be put into effect in the next decade.

The heayweight immigration commission authorized by the last Congress has just got to work. Why Congress should want more light on the subject of immigration just now is a little hard to see. This Government has been paying special agents, special commissioners and special junketing committees to investigate the immigration problem for the past ten years. The latest "special commissioner" sent abroad was T. V. Powderly, a very estimable gentleman who spent a year in Europe at the Government expense and wrote the longest if not the most enlightening report on immigration that has ever been submitted to a long suffering government. But now this thirst for knowledge is to be further assuaged by a commission of three Senators, three Representatives and three appointees of the President, all of whom have gathered in Washington preparatory to taking summer tours at Government expense to the coolest and remotest quarters of the earth. This is a rich country and we can well afford the luxury of special commissions if we want to pay them. But the immigration excuse is worn almost threadbare. The fact of the matter is that Congress does not need and does not want any further enlightenment on the immigration business. It does not want to pass any immigration legislation of any sort if it can help it. Frankness and economy both would suggest simply standing pat and doing nothing, but what Congress wants is an excuse for delay, and it will get it while waiting for the report of this latest and most unnecessary commission.

The friends of Secretary Taft and Senator Foraker are having a lively scrimmage for the "delegates" to the next National Republican Convention. It is admitted that Secretary Taft has the better of the situation, for he is a man of the people, and will make the corporations "obey the law" even if he has to put some of their millionaire officials in "stripes." Foraker is an able man, but if he were elected President, the plundering of the people by the corporations would undoubtedly go on unmolested. It is to be presumed that Roosevelt's supporters not only in Ohio, but all over the country, will demand Taft's nomination.

Senator Charles Dick, old-time friend and colleague of Senator Foraker, has gone to Ohio to personally conduct the fight of the Foraker against the Taft forces. It is a move that might have been expected, in fact, was expected as a development of the campaign. The interest lies, however, in the fact that Senator Dick has made the flat announcement that the Ohio Republican machine is against Roosevelt, Rooseveltism and any Roosevelt candidate. Thus the issue is squarely made, and it will be a finish fight, for neither the President nor Senator Foraker are in the habit of giving quarter. Outsiders may look on with interest and gain considerable instruction therefrom. It is the first serious and open split in the Republican ranks, and the question that will be settled for the rest of the campaign will be whether or not the President's personality and popularity in his own party will avail against one of the most effective machines in one of the worst machine-ridden States.

The latest intelligence from England is that one Sweetenham, a small individual, late of Jamaica, is going to visit Canada. This looks as if Swettenham is coming to the border line to hand us a little talk at short range.

The ideal of Mayor Tom Johnson of Cleveland, is a street car system on which it costs nothing to ride, but a better scheme still, is a street car system on which the conductors pay each passenger a nckel.

## ORIGIN OF GARGOYLES.

**Stone Effigy Early Used as Roof Spout on Cathedral of Rouen.**

One of the earliest of the more elaborate attempts to transform roof spouts seems to have been at the Cathedral of Rouen, where the figure of a great dragon was adopted for one of them, though whether it was intended as an object of terror to the hobgoblin fraternity of the seventh century or a symbol of the church's triumph over a public foe can only be conjectured.

This fearsome wild fowl terrorized both banks of the Seine and terribly ravaged the city of Rouen until he was gallantly slain by St. Rominus, bishop of the cathedral there. Probably in sheer jubilation of spirits and in compliment to the valorous bishop the carcass of the mischievous beast was embodied in stone and set up aloft as a warning to all depredators and any evil spirits by which they might be actuated, says the London Globe. The name given to this unlucky animal is said to have been gargoille, and hence the name given to his effigy, according to some authorities.

Others, however, derive the appellation from "gargoille," the weasand of the throat, or from "gargale," a disease to which swine are liable and which causes a gurgling sound in the throat, like that which water makes in passing through a pipe. We are all at liberty to choose a derivation, since nobody can speak with authority.

If gargouille really was the name given to some more or less fabulous beast whose carcass was imitated by some fanciful sculptor in the making of an ornamental spout, then the probability is that we have here the origin not only of "gargoyle," but of the French word for the weasand, as well as of the English words "guggle" and "gargle."

One ugly creature having been adopted for a stone effigy on so famous a church as that at Rouen in the seventh century may easily be conceived to have set the fashion for other churches, and the superfluous hideousness of so many of these objects certainly supports the notion that in part their sculptors were actuated by the idea of frightening the uncanny folk from the sacred edifices and the worshipers.

The dragon is the commencement of all forms for the gargoyle, and toward the end of the thirteenth century, when the propriety of adopting this creature had become an old tradition of church architecture, the form of the monster was transformed into a thing of some approach to grace and elegance. In the meantime, however, almost every bird or quadruped of evil repute and of a figure that could by any malevolent ingenuity be distorted into something frightful has been called in for the spiritual defense of the church, and when animal shapes alone had been made to undergo every contortion that could be conceived they were combined with human figures and faces, a development which inevitably led to the later adoption of all sorts of imps and demons.

Thus on many of the finest churches in Christendom we find not only almost every kind of bird and beast, real and legendary, but everything uncanny and diabolical in human form. It must be allowed that it showed exceptional originality and an uncommon power of good nature in the nineteenth century sculptor who, in the course of the restoration of Chester cathedral about the time of the disestablishment of the Irish church, capped this long series of ecclesiastical embellishments with a caricature headpiece of Mr. Gladstone.

### Burmese Indolence.

Burma is said to be peopled by about the laziest race in the world. Work is never done except when absolutely necessary, and even then as little as possible, and that in the easiest, most shiftless manner. If a Burman wishes to cultivate a piece of ground he sets fire to the bushwood as a cheap, easy and efficacious method of preparing the virgin soil. For two or three years he cultivates that piece of land and sets fire to another spot, allowing the jungle to grow in the old place, which will be ready for reburning when the other ground wants rest. Rice growers dispense with plows, turning loose instead a number of buffaloes, which cut up the saturated sod with their hoofs. When a Burman has earned a little money he immediately proceeds to spend it all, for the Burmese have no ambition to be rich and never hoard. Consequently there are no large landowners, and, there being no aristocracy, the people are as near being on an equality as possible. Poor folk are quite as rare as the rich, and the only beggars to be met are the lepers, who sit on the steps of the pagodas.

## FATAL FAMILY FEUD.

**Terrible Outcome of Children's Quarrel Taken Up by Parents.**

New Orleans, La., April 30.—Two men dead and one fatally wounded and two badly wounded is the terrible result of the fathers and relatives of two small boys taking up a child's quarrel which the youngsters were settling with their fists at school exercises.

Dead: Cad Checalier and Henry T. Clark.

Fatally injured: Truman Clark and Mr. McCann.

Badly wounded: W. H. Sayes, and slightly wounded, S. T. Shannon.

The tragedy occurred at Vick, La. All those injured are prominent men in the community, three of them, including one of the dead, being heads of families.

During the exercises Mr. Sayes separated the two little boys as they fought, and Truman Clark accused him of having slapped the face of one of the youngsters who was related to Clark.

It is alleged that Clark demanded that they meet and settle the matter after the exercises, and that in preparation for this meeting Sayes went home and secured his revolver. The two went a short distance from the school, where Sayes was knocked down. Henry Clark, a brother of the man who challenged Sayes, joined the fight.

The latter, it is alleged, had an open knife with which he tried to stab Sayes. While still down, Sayes opened fire, his first bullet killing Cad Chevalier, who was at a distance and did not know of the quarrel. The second bullet fatally wounded McCann, a spectator, and the next two struck the Clark brothers, mortally wounding both. S. T. Shannon was injured by a blow on the head from the butt of Saye's revolver, and Sayes himself has six stab wounds.

All were neighbors and several of them had been known as almost lifelong friends.

## WOMEN PAY MORE.

**Why Insurance Companies Discriminate Against the Gentle Sex.**

Medical examiners of insurance companies say that the reason a woman pays more for the privilege of insurance than a man, is from the fact that women more readily fall victims to indigestion and stomach troubles and the fatal ailments that spring from these causes.

All persons, they say, who have a weakened digestive system and suffer from sick headache, dizzy spells, distress after eating, specks before the eyes, bloating, nervousess, sleeplessness, and the many other symptoms of indigestion, soon lower the tone of the whole system and are most susceptible to a fatal illness.

For curative power in all stomach troubles, nothing else is as safe yet effective, nothing else can be thoroughly relied upon to relieve all troubles from indigestion as Mi-o-na. It is unlike any remedy heretofore known and is really one of the valuable discoveries in modern science.

It is not the acute attacks that influence the insurance examiners alone, but the constant feelings of weakness, headaches, indigestion and stomach troubles—these things, physicians say, kill more people than many more serious diseases.

To escape this condition of ill health, to enjoy one's food and yet never suffer with indigestion, a person should use Mi-o-na stomach tablets. They are not a mere digestive tablet, but strengthen and restore to natural action the stomach and bowels and effect a complete cure in even the worst form of stomach troubles.

J. W. McCollum sells Mi-o-na in 50-cent boxes under a guarantee to refund the money unless it does all that is claimed for it.

**Keen Competition in Gold.**

London, April 30.—There was keen competition from Paris Monday for the large supplies of gold in the market, the total, $6,000,000. The Bank of England, however, outbid the French competitors, and secured $5,000,000 at a half-penny advance. India took one million and Paris obtained the balance, one and a half million.

Mr. and Mrs. J. P. Henry and Miss Lena Godwin of Hawthorn arrived in the city Monday. Mr. Henry returned the same day, but his wife and Miss Godwin remained as guests of Mr. and Mrs. L. W. Fennell.

Mr. Harris, for twenty years chief of the Tampa Fire department, and one of the leading citizens of that progressive South Florida city, spent yesterday in Gainesville on business. Like all other Tampa folks, he boosts by his town, and declares the city is growing in "leaps and bounds."

## Convalescents

## NEED VINOL

for it hastens recovery by creating strength

Our local druggist, W. M. Johnson, says: "There is just one thing the matter with a person who has been sick—that is, weakness.

"To all such people in Gainesville we recommend our delicious cod liver oil preparation, Vinol, as the very best strength creator for convalescents we have ever sold in our store.

"Vinol strengthens the digestive organs, creates an appetite, promotes sound sleep, makes rich, red blood, and builds up a depleted sytsem to health and vigor.

"This is because Vinol contains in a highly concentrated form all of the medicinal and strength creating elements of cod liver oil, actually taken from fresh cods' liver, with the useless, nauseating oil eliminated and tonic iron added.

"We return money to those who buy Vinol and receive no benefit."—W. M. Johnson, Druggist.

Note—While we are sole agents for Vinol in Gainesville, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

### THE MOTHERS' MEETING.

It Was Held at Home of Mrs. Yocum, and Was a Brilliant Success.

On Monday afternoon a meeting of the Mothers' Club was held at the home of Mrs. Dr. Yocum, East Main street N., which was one of the most largely attended and most interesting yet held in this city.

The program was of a literary and musical nature, opening with reading of the Scripture by Mrs. I. E. Webster. This was followed by a fervent prayer by Mrs. Newton of Virginia, State organizer, who is here in the interests of the W. C. T. U.

There was a reading by Mrs. Fred H. Ford, followed by a vocal duet by Mesdames Elizabeth Smith and L. L. Sandborn, which were greatly enjoyed.

Mrs. Yocum then rendered a delightful instrumental solo, after which Mrs. Sandborn offered a reading, "Off the Hook," which was deeply appreciated for its humor and cleverness.

Mrs. Tom F. McBeath rendered a delightful vocal solo, after which delicious refreshments of strawberry short cake and lemonade were served, and it is needless to add were relished.

During the meeting a petition was circulated and generally signed, asking the Legislature to act favorably and pass the Humphreys temperance bill, now pending.

Mrs. Newton, who is State organizer for the W. C. T. U., is a guest of Mrs. A. W. Taylor while here.

### TUESDAY'S FIRE.

Gainesville Coffin Factory Was Ablaze, But Quickly Extinguished.

An alarm of fire was turned in from Box 81 at 4 o'clock Tuesday afternoon, which summoned the department to the plant of the Gainesville Planing and Coffin Company, South Gainesville.

Fortunately the fire was discovered in time and an alarm sent in promptly. The result was that the flames were extinguished with but little damage.

The fire started in a tank near the main building, but the origin could not be learned.

### Delegates Are Gone.

The delegates of the Kirby Smith and J. J. Finley chapters, U. D. C., the names of whom appeared in The Sun of Tuesday morning, left on the afternoon train of that day over the Seaboard Air Line for Jacksonville, where they will represent their respective chapters at the State convention of the Daughters.

It had been announced that Mrs. J. M. Halle, the president of Kirby Smith Chapter, would be unable to attend, but during the morning she arranged matters in a way that would permit her going, hence left with her delegation, much to the delight of the ladies. Mrs. A. B. Oliver, however, of Kirby Smith Chapter, found it impossible at the last moment to get away.

The delegates will return Saturday.

### A Sad Trip North.

Albert Scranlon of Jefferson, Ohio, one of the most influential and wealthiest citizens of his section, passed through the city Monday en route to his home from St. Petersburg.

This was a sad trip for Mr. Scranlon, for he was grief-stricken, the remains of his devoted wife being taken to her home. Mrs. Scranlon died suddenly at St. Petersburg on Sunday.

For the past six years Mr. and Mrs. Scranlon, who have friends in this city, have been spending their winters at St. Petersburg and other points, but this was a sad ending of a season which had been passed most pleasantly.
